

PORTFOLIO
PELİN BAYÇELEBİ

Pelin Bayçeşlebi was born in 1976 in Trabzon, Turkey. With its misty climate, strong winds, choppy sea, rich historical memory and humorous people; this city has deeply shaped the artist's perspective on life and art. She completed her university education in Ankara, in various fields of Business Administration, up to the master's level. Pelin started her artistic studies with sculpture; immediately after, she fell in love with painting. She received training from Turkey's most valuable artists in both sculpture and painting. The artist has been working in her own studio since 2017. She exhibits her work in international art fairs and group exhibitions every year. The works of the artist are collected by local and foreign collectors.

ARTIST STATEMENT

Pelin likes challenging mental boundaries and stretching minds in her paintings. She is keen on going beyond realist approaches and reconstruct herself in any form anytime by using light, shadows, colors and mud. She is fascinated by the idea of creating an alternative world through her art, a place where the rules of reality were twisted and anything is possible.

Driven by the urge of expressing feelings from the perspective of an adult or a child in a timeless and genderless manner; Pelin is inspired by the poetical relationship of every visible and invisible pieces of the universe and the tremendous balance of nature.

Inviting viewers to step into her strange, surreal universe; she hopes to inspire them to think outside the box and embrace their own creativity.
